Depth and bottom photos: field form

One form per survey. Page 1 is used in the field; page 2 is the post-site report, filled in the same day. Fill it in with Adobe Acrobat Reader (free): the Survey ID is then filled in automatically and the form is saved correctly. Method: Depth and bottom photos page of the SEASTRONG Field Processing Tools documentation.

1. Survey header

Study area (BZ / SC / FJ) Belize, Seychelles or Fiji		**Corridor (C1–C6)** Corridor number in the study area	
Survey ID e.g. BZ140327C1bathy (automatic in Acrobat)	will autocompile	**Date** Survey date, as mm/dd/yyyy	
Operators Swimmer and surface support		**Time zone of watch / phone** Time zone of the GNSS and the phone, e.g. UTC-6	
Data collected Depth and photos, depth only, or photos only		**Echosounder ID** Serial number or label of the Deeper Pro	
Camera ID Label of the camera used		**GNSS ID** Label or serial number of the handheld GNSS	
Photo interval (s) Timelapse interval set on the camera, e.g. 1		**Tide during the survey** Rising, falling, high or low	
Water clarity Clear, moderate or turbid			

2. Set-up

- Echosounder mounted under the kickboard, always under water
- Camera mounted under the kickboard, pointing straight down; timelapse mode; memory card empty
- Depth: phone charged, in a waterproof case; Deeper app connected; phone GPS fixed
- Photos: handheld GNSS recording a track (1 s), fix OK, on top of the board in a waterproof bag
- Scan started in the Deeper app, GNSS track started, camera started

3. Reference photos (clock synchronisation)

Hold the handheld GNSS screen showing the time under the camera and let it take a photo, at the start and at the end of the survey. Write the time shown on the screen.

Start reference photo: GPS time shown Time on the GNSS screen in the photo (hh:mm:ss)		**End reference photo: GPS time shown** Time on the GNSS screen in the photo (hh:mm:ss)	

4. Survey times and notes

Survey start time Time when recording was started		**Survey end time** Time when recording was stopped	

Notes: interruptions, problems, anything unusual.

Post-site report

Filled in the same day, after downloading the data. Send it with the data to the data manager.

A. Survey

Survey ID e.g. BZ140327C1bathy (automatic in Acrobat)	will autocompile	**Date** Survey date, as mm/dd/yyyy	
Filled in by Who fills in this report		**Survey complete (Y / N)** Whole corridor covered as planned	
Time in the water (h) From entering to leaving the water		**Waves** Calm, moderate or strong	
Current None, weak or strong			

B. Data

Scan exported (CSV) (Y / N) Scan exported from the Deeper app		**GPS track exported (GPX) (Y / N)** Track exported from the handheld GNSS	
Photos (n) Number of photos downloaded from the camera		**Photo folder name** Survey ID + _photos	

Data download link Link to the shared folder with all data, photos and this form	

C. Quality check (tick if a problem)

- [ ] No GPS fix for part of the survey
- [ ] Reference photo missing or GPS time not readable
- [ ] Camera stopped or memory card full
- [ ] Photos blurred, dark or turbid
- [ ] Echosounder out of the water for part of a track (waves)
- [ ] Planned tracks not completed

D. Deviations from the protocol, problems and notes
